

## Beatport Announces Second Installment of “Game Changers”; Livestream + Documentary Series on the World’s Most Exciting Electronic Artists

### Techno Heavyweight Chris Liebing to Live Stream on May 26th at 8pm CEST

(BERLIN, DE - May 20th, 2021) **Beatport**, the worldwide home of electronic music for DJs, producers, and their fans, announced today that **Chris Liebing** will star in the next episode of “**Game Changers**,” a three-episode series of livestreams and mini-documentaries being produced in conjunction with **Microsoft Surface**. Liebing will appear LIVE from an abandoned Cold War listening station turned street-art hotspot known as Teufelsberg (Devil’s Mountain) in West Berlin on Wednesday, May 26th at 8pm CEST on Beatport’s channels including [Facebook](#), [Twitch](#) and [YouTube](#), with a documentary to follow on June 1st.

This is the second installment of “Game Changers,” a collaboration between Beatport and Microsoft of mini-documentaries and livestream performances filmed in iconic locations featuring game-changing electronic performers whose passion for technology has propelled their creative endeavors to new heights.

Liebing recently announced that he will release his highly anticipated new album this November on Mute Records. Entitled *Another Day*, Liebing worked with Mute founder **Daniel Miller** to perfect the LP’s flavor and cadence. The album is a departure from the driving techno that Liebing has made himself known for on dance floors worldwide.

“With this album, I wanted to take myself out of it as much as possible,” explains Chris Liebing. “I’m a strong believer in letting the moment decide what’s happening. If you’ve studied your setup and you know what you’re doing, then you can let the moment take over because you’re not busy trying to figure out how things work.”

Fans will get a preview of *Another Day* in Liebing’s 90-minute “Game Changers” set this coming Wednesday when he performs live from Berlin at 8pm CEST on Beatport’s channels including [Facebook](#), [Twitch](#) and [YouTube](#).
